Size of the box: 60X40X40 cm, weight 6.2 Kg

25 Boxes on a pallet

Size of the pallet: 120x100x220 cm, weight 155 Kg

Floral foam is plastic and as a result of the way it is used, it makes contact with the natural environment when water containing floral foam is poured down a drain or floral foam is discarded into a garden or soil.

This plastic floral foam, which breaks into tiny pieces, can be ingested by a range of freshwater and marine animals. It can therefore also be ingested by you.

Sideau® is new. Sideau® is natural. 100% biodegradable. 100% reusable. Developed in The Netherlands in 2018 and available all over the world.
